Aztec of the Month

Adrian Molina (He/his/el)
Spanish & Psychology Major
Graduation Year: 2025

Hi Aztecs, I'm deeply honored for this opportunity and grateful for my time at SDSU-IV. Through engaging in diverse departments like the Psychology Club and the SDSU IV Food Pantry, I've learned valuable lessons about community involvement and addressing important issues like food insecurity. My commitment to making positive impact on campus has grown stronger as I actively participate in volunteering and educational efforts.

I'm excited for the upcoming fall semester, working with the Career Services Center. This remarkable opportunity will allow me to have a continuous professional and personal growth through practical experience. Thanks to my mentors and classmates, you have been a guidance and I'm eager to continue to gain wisdom from each of you.
